# SITUATION SUMMARY

## Cal OES Activation Status

State Operations Center	Inland Regional EOC	Coastal Regional EOC	Southern Regional EOC
Level 1	MRCC	MRCC	MRCC

### Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated March 2, 2020, at 0700 hours, in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. All Cal OES Regions are providing staff to the Cal OES Multi-Regional Coordination Center (MRCC) in support of statewide operations. The MRCC is a consolidated activation of all CalOES Regional Emergency Operations Centers. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

### Situation Overview

- **FEMA-4482-DR-CA**

On March 22, 2020, the President approved Major Declaration FEMA-4482-DR-CA (DR-4482) for the COVID-19 Pandemic.

- **Executive Order N-33-20:**

On March 4, 2020, the California State Public Health Officer and Director of the California Department of Public Health (CDPH) ordered all individuals living in the State of California to stay home or at their place of residence, except as needed to maintain continuity of operation of the federal critical infrastructure sectors.

- **Global Health Advisory**

On March 19, 2020, the U.S. Department of State issued a Global Health Advisory at Level 4 (Do Not Travel) due to the global impact of COVID-19.

### **Confirmed Global COVID-19 Cases - Per Worldometers COVID-19 Live Updates as of 1400 Hours on April 3, 2020:**

- 1,091,215 (+83,422) Confirmed cases in 204 countries
- 58,518 (+5,907) Deaths

# WEATHER OF CONCERN

## NORTHERN CALIFORNIA

- Late Saturday morning, snow levels will drop to around 3,500 feet as a new system approaches Saturday night.
  - Heavy mountain snow can be expected by Sunday afternoon, with 1 to 2 inches an hour accumulation.
  - Mountain travel may be difficult and dangerous at times.
  - Afternoon thunderstorms are possible in the Valley.
  - Multiple Winter Storm Watches have been issued from late Saturday morning through Monday evening.
- The following burn scars are being monitored for the potential of debris flows/flash flooding (day of concern): Ferguson (Monday).
- Late Sunday night, snow levels will lower to 3,000 feet, with accumulation at those levels.
- Approximately 1 to 2 feet of snow can be expected from Saturday morning through Monday morning.
  - Some local areas will see averages of 3 feet in snow accumulation.
- Avalanche Watch in effect 0700 hours 04/05/20 to 1200 hours on 04/06/20 for the Greater Lake Tahoe areas:
  - Alpine County, El Dorado County, Nevada County, Placer County.

## SOUTHERN CALIFORNIA

- No significant weather of concern.

### **Active Weather Warnings, Watches and Advisories by County:**

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

# **WEATHER KEY POINTS**

**04/03/20 - 04/09/20**

## **Saturday**

- The first of two storm systems will bring rain, isolated thunderstorms, and mountain snow to northern and central California today and tonight.
  - Periods of moderate to heavy mountain snow are expected with impacts to mountain travel. Snow levels ~3500-4500ft.
    - Winter Storm Warnings and Advisories are in effect for the northern Sierra Mountain Passes, Southern Cascades and northern Coastal Ranges.
  - Strong winds are expected and could impact outdoor activities and temporary structures.
  - Isolated thunderstorms with small hail and periods of heavy rain are possible.
- Southern California is expected to remain dry until late tonight into early Sunday morning.

## **Sunday-Monday**

- A second colder and strong storm will bring moderate to heavy rain, scattered thunderstorms, gusty winds, and heavy mountain snow to most of California
  - Significant travel impacts are expected with snow and gusty winds over the mountains.
    - A total of 1-2 feet of snow is possible between through Monday from 4500 to 7000 feet, with two to three feet of snow possible above 7000 feet.
  - Strong winds are expected and could impact outdoor activities and temporary structures.
    - Strong winds with gusts of 35-50mph, notably in the Bay Area and Monterey Peninsula are expected Sunday and could impact outdoor activities and temporary structures.
  - Moderate to heavy rain is expected at lower elevations, particularly in southern California.
    - Localized urban and flash flooding is possible Monday in southern California.
  - The following burn scars are being monitored for the potential of debris flows/flash flooding (day of concern):
    - Ferguson (Sunday and Monday)

## **Tuesday-Wednesday**

- Southern California will see moderate to heavy rain and mountain snow continue through Wednesday.
  - Winter Storm Warnings are in effect for southern California mountains
  - Localized urban and flash flooding is possible in southern California.
- Some lingering rain and snow showers are possible in central California

## **Thursday-Friday**

- Warmer and drier conditions are expected across northern and portions of central California
- Unsettled conditions with lingering rain and mountain snow showers are possible into Thursday for Southern California.

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2020-LAW-15860, 04/03/20 at 1257 hours:** Received email from CSWC reporting an InReach activation in Glenn County at coordinates 39.762365 / -122.019846. IERCC attempted to contact device owner and was unsuccessful. They were able to speak with the emergency contact, who advised the device owner and his daughter were camping and floating the river in a gray 4-person raft. **1300 hours:** Contacted IERCC and confirmed activation information. **1304 hours:** Contacted Glenn County SO and provided them activation information. They advised they would be enroute to the area of the coordinates. **1505 hours:** Glenn County SO advised they located the device owner and they were fine. Accidental activation. **Mission Closed**
- **2020-LAW-15904, 04/03/20 at 1441 hours:** Received an email from CSWC reporting a PLB activation in Los Angeles County at coordinates 33.795018 / -118.385056 . AFRCC reported the activation and advised an error of up to four nautical miles. The RO of the device had a residence within the coordinate area. **1450 hours:** Contacted AFRCC and confirmed activation information. **1605 hours:** Spoke with RO, who advised he was performing a test of his PLB and the activation was accidental. **1612 hours:** Contacted AFRCC and advised of accidental activation. **Mission Closed.**
- Please see the attached California Department of Public Health (CDPH) / Cal OES Joint Situation Report for additional details.
